Dry-Fill Packaging Solutions

Food and Non-Food

Model 680QLCPDF shown
Producing up to 3000 cartons per hour

NIMCO is the industry leader in dry-fill products packaging. Constructed of all stainless steel frames and with mechanical drive systems, many special design features and technology enhancements adapt liquid filling machines to the intricacies of dry-fill applications for food and non-food products. Auxiliary filler systems specific for each product are integrated into any NIMCO machines regardless of carton volume

or machine speed – fillers include augers, cup, net-weight scale or volumetric systems. NIMCO offers many different efficient and economical machine models, designed to fill an array of products into paperboard gable top cartons with fill volumes from 4 ounces through 5 liters at speeds ranging from 4 up to 125 cartons per minute – all machines are available with the optional CAP PAC® spout applicator system.

Sugar – Candy – Cereal – Granola – Snack Crackers – Potato Flakes – Sprinkles – Powdered Drink Mix – Nuts – Salt Spices – Pancake Mix – Confectionaries – Granular Laundry Detergent – Tile Grout – Cement Coloring – Ammunition
Pet Products – Kidney Dialysis Powder – Activated Charcoal – Fertilizer – Dried Fruits & Vegetables – Dry Creamers

Liquid Packaging Solutions

Food and Non-Food

Model 680QLCPUC shown
Producing up to 3000 cartons per hour

NiMCO has been specializing in the design and production of durable, reliable and versatile packaging machine systems for almost 50 years. NiMCO's ability to customize each machine for our customers has led to the most flexible machine models in the industry for a wide variety of liquid product types to fill carton volumes of 4 ounces through 5 liters at filling speeds of 4 up to 125 cartons per minute.

To meet the greater demands for packaging hygiene, the NiMCO UltraClean ESL system takes standard machines to a higher hygiene level to help extend the shelf-life of chilled products beyond the pasteurized level for distribution benefits. NiMCO takes pride in our state of the art mechanical designs to help maximize production while minimizing maintenance costs.

Milk - Cream - Juice - Liquid Eggs - Yogurt - Fruit Drinks - Ice Cream Mix - Whipping Cream - Sake - Tea - Soups
Sauces - Syrup - Beer - Wine - Laundry Detergent - Fabric Softener - Paint - Shampoo - Skin Cleanser - Motor Oil
Wall Paper Paste - Water - Coffee Drinks - Sour Cream - Salad Dressings - Gravy - Salsa - Egg Nog - Deli Salads

Tea

NiMCO World Headquarters

NiMCO Corporation, the worldwide leading independent manufacturer of gable-top packaging machinery operates from its modern 40,000 sq. ft. factory. This state of the art facility, located just outside Chicago, IL is dedicated to the assembly, testing and servicing of all NiMCO products and provides major advantages in production capacity, efficiencies and order lead-times.

Recognized as a leader promoting, milk, juice, food and non-food packaging applications, NiMCO also manufactures machine systems to form and fill rectangular sizes to satisfy the needs of a demanding global marketplace.

NiMCO machines are in service in over 60 countries throughout the world. The NiMCO equipment will form, apply cap, sterilize and seal paperboard gable top carton blanks manufactured by any qualified converter. We are represented internationally by recognized distributors, licensees and representatives who sell and service NiMCO equipment.

NiMCO Installations

Products manufactured by NiMCO can be found in countries around the world including: Argentina, Armenia, Australia, Belize, Bolivia, Brazil, Canada, Chile, Colombia, Cyprus, Denmark, Dominican Republic, Ecuador, El Salvador, England, Finland, France, Germany, Grand Caymans, Greece, Greenland, Guatemala, Guyana, Haiti, Honduras, Hong Kong, Iceland, India, Ireland, Italy, Jamaica, Japan, Jordan, Kazakhstan, Kenya, Korea, Malaysia, Mexico, Mongolia, Morocco, Namibia, Netherlands, Nicaragua, Nigeria, Panama, Philippines, Portugal, Puerto Rico, Russia, Qatar, S. Africa, Saudi Arabia, Scotland, Singapore, Spain, Surinam, Switzerland, Taiwan, Thailand, Trinidad, Turkey, UAE, Ukraine, Uruguay, Venezuela and throughout the United States.

NiMCO understands all aspects of paperboard packaging technology and holds many patents and copyrights which are licensed for manufacture throughout the world. We are active in researching and developing new applications in the food and non-food industries. Our main objective is to promote customer satisfaction and loyalty through the simple and mechanical design of our machine systems allowing our customers ease of operation and unbeatable reliability at an affordable cost.
